

Searching WebPath Express directly

If you see **WebPath Express** on the side menu, you can use it to search WebPath Express directly.

The monthly theme offers you some interesting subjects.

To see some others, scroll through the months.

Just click **Find It** to explore any of them.

On the **Search** tab, enter your search term and click **Search**.

If you misspell a word or WebPath Express can't find anything, it offers suggestions for other search terms.

The **Spotlight** focuses on a special topic.

On the **Browse** tab, you can click the links to explore the subjects.

On the **Visual Search** tab, you can click the pictures to browse through the subjects.

WebPath Express in Library Search

To find websites on a particular topic, you can use any of the **Library Search** options.

For example, from Basic Search, enter your search term and click the appropriate button:

Keyword looks in titles, authors, subjects, series, and notes.

Title looks only in title information.

123 Series looks in series titles.

S Subject looks in subjects.

A Author looks in authors and illustrators.

Viewing website summaries

Both **Library Search** and **WebPath Express** search results list the websites on their own tab.

For every site on the list, WebPath Express provides a summary, a topic, and a link to the website.

Click the title or the URL to open the website described. The website opens in a new window. For a printer-friendly page, click 

WebPath Express results for (bears) [\[Refine your search\]](#) 

Selected List: My Personal List

Displaying 1 - 25 out of 369 All Grade Levels All Domains 

Bear Grade Level:  

The name bear refers to any one of seven genera of large mammals that make up the family Ursidae. Learn about the kinds and habitats of bears. You will find information about the sun bear, the spectacled bear, and others. Bears have a life span of 15 to more than 30 years in the wild. Their life cycle is discussed. Find out about their behavior, as well. Other topics include evolution and conservation. Access the animals directory to learn about other animals.

Topic: Bears

URL: <http://www.worldalmanacforkids.com> 

You can add WebPath Express sites to a Resource List by clicking  adjacent to each URL.

To view the List, open **Resource Lists** from the side menu, and then open the **Web Sites** tab.

Each site shows the grade levels for which it is appropriate:

-  Kindergarten to 5th grade
-  Middle School
-  High School

Browsing for websites

If you chose to **browse subjects** (or **titles**, **authors**, or **series**) in **Library Search**, the browse list includes website links.
