

## **Cataloging resources for subject headings and call numbers**

Open another browser window, and search one of the following by keyword or subject:

1. Ocean State Libraries catalog at <http://www.oslri.org/>
2. OhioLink <http://olc1.ohiolink.edu/search/>
3. AccessPA <http://205.247.101.11/search~S4>
4. Library of Congress <http://catalog.loc.gov/>

Look for similar items to the book or AV item that you are cataloging to determine possible subject headings and/or call numbers. You can cut and paste from the second browser screen into the correct entry space in your bibliographic record.
