Presented by

Maria Morin, MLS

Patte Weathers-Parry, MLS, EdM

Eager to introduce more tech-savvy applications to your student patrons? Curious about how to spur interest in your library's collection? Our presenters will highlight use of the program PhotoStory3 and other automated methods you can use to create video book reports and reviews. Basic steps for how to create a photo story and online book will be demonstrated. Samples of how these two librarians have incorporated these programs in their library instruction will be shared. Bring your own laptop if you would like to practice creating a sample product. You will want to download Photo Story 3 onto your laptop before attending the program.
